

Use the discussion board to ask questions and give answers. But you need to join Wikispaces first.

You can always look at the discussion posts by clicking on the “push-pin” icon. But if you are logged in, you can also post a question or an answer.

Go to www.wikispaces.com

Then, if all goes well, you will get a “welcome screen” and an email.

You can access the website in two ways:

1. Just like you always have, as a guest, but you can't post to the discussion board.
2. Log in and go to c7chemistry ... then you can post to the discussion board. It is possible to post to any page, but let's make it a convention to only post on the “What's Happening” page.
